THE HYERS SISTERS.

In general terms it is safe to say that whatever or whoever comes to the public under the auspices of the Redpath Lyceum Bureau may be set down as worthy of the public's consideration. The Hyers Sisters come to Carson under this management. As to what the newspapers agree upon as their verdict, the same is quite fairly set forth in the following, from the Portland, Maine, Press: "They are excellent comedians in their way, and the musical talent in the troupe surprises all who have not seen them. The Hyers Sisters | Home Act. are well known in Portland, and they are probably the best colored singers before the public. Miss Madah Hyers, the soprano, has a voice that in the upper register is remarkably pure, clear and sound, and its compass, we are assured, is so wide that she can aing the G above the staff. She sings with taste and expression. Musically, Miss Madah Hyers is the most noticeable in the company. Miss Louise Hyers has a good mezzo-soprano voice which she uses judiciously. Mr. J. W. Luca, baritone, and Mr. Wallace King, tenor, have excellent voices. Mr. King would put to the blush many tenors his opposite in color. His voice is a pure head voice, and is very even throughout in the quality of its tone. The acting is liberally interspersed with plantation and jubilee songs, which in tenth give the drama most of its flavor and color. The rendering of these quaint melodies was marked by a beauty, richness and weird fascination indescribable, and which we have never heard equaled by any other troupe. The antics of Billy Kersands deserve a word of praise. He is really one of the best features of the enjoyable entertainment given by this troupe." At the Carson Opera House on the evenings of the 25th and 26th.

MINERS STRIKE AT BODIE.

Following are the particulars received here last evening of a strike among the miners at Sodie: The Mechanics Union at Bodie are n a strike for an increase of wages and a reduction of time to eight hours per day. Between two and three hundred men marched up the hill to-day in a body with the determination of compelling the mining companies to comply with their terms or shut down. The Mono Company barricaded its doors and refused admittance to the men, being armed to resist all attempts to force an entrance, and the Superintendent says he will hold the fort at all hazards. The Mechanics have given him two hours to open the doors or take the chances of having trouble. The Bodie mine with several others, amongst which are the Tioga, Dudley, Blackhawk and Standard, were compelled to shut down. Much excitement prevails in the camp.
